

VERSION 6.5 RELEASED!

We are proud to announce the release this month of version 6.5 of Welford Chart Notes.

Version 6.5 has many new features. These new features include:

- **@Diag2Col:** display diagnoses in a table with two columns.
- **@LabSince and @LastLabSince _Category Flag:** organize lists of previous lab results by Lab Book Category.
- **@LastCategory<CategoryName>:** replaced with the most recent results of tests which belong to a particular Lab Book Category.
- Appointment Scheduler Reindexer: rebuilds the index to the Appointment Scheduler.
- Creatinine Clearance Report CKD-EPI Formula: calculates an estimated creatinine clearance based on the new CKD-EPI Formula.
- Cross-Reacting Allergy Skip List: designate cross-reacting allergy warnings that you no longer
 wish to
